PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience in building responsive and user-friendly web applications using HTML5, CSS3, JavaScript (ES6+). Strong understanding of DOM manipulation, event handling. Passionate about writing clean, maintainable code and continuously enhancing frontend development and problem-solving skills.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+)

Frontend Technologies: HTML5, CSS3

Core Concepts: DOM Manipulation, Event Handling, Responsive Web Design

Styling and Layout: Flexbox, CSS Grid, Media Queries

Version Control: Git, GitHub

Development Tools: VS Code

Soft Skills: Problem solving, Team collaboration, Communication skills, Time management

PROJECTS

Tic-Tac-Toe Web Application

- Technologies: HTML5, CSS3, JavaScript
- Developed a fully functional browser-based game with interactive user interface and real-time updates.
- Implemented complete game logic including win detection, draw conditions, and turn switching using modular JavaScript functions.
- Managed application state dynamically to track player moves.
- Applied DOM manipulation and event listeners for seamless user interaction.
- Designed a responsive layout using Flexbox and CSS Grid for mobile and desktop compatibility.

Simple Calculator

- Technologies: HTML5, CSS3, JavaScript
- Built a responsive calculator supporting arithmetic operations including addition, subtraction, multiplication, and division.
- Implemented real-time input handling and dynamic output rendering.
- Structured modular and reusable JavaScript functions for maintainable code.

Counter Application

- Technologies: HTML5, CSS3, JavaScript
- Developed an interactive counter with increment, decrement, and reset functionality.
- Utilized event-driven programming and DOM manipulation for dynamic UI updates.
- Ensured responsive design and smooth performance across devices.

Background Color Changer

- Technologies: HTML5, CSS3, JavaScript
- Designed a responsive web application to dynamically change background colors based on user interaction.
- Implemented event handling and DOM updates for seamless interactivity.
- Ensured cross-browser compatibility and optimized rendering performance.

EDUCATION

Bachelor of Technology (B.Tech)

Computer Science (Artificial Intelligence and Machine Learning)

Guru Nanak Institute of Technology

CGPA: 8.42 / 10

Expected Graduation: 2027
